Dairyland Sports – Our Story

Dairyland Sports is a non-profit organization that was founded in 2017, serving a mission to engage and empower individuals of all physical abilities to improve their health and well-being through participation in sport, fitness, & recreation. Dairyland Sports routinely serves adaptive athletes in Wisconsin, and across the Midwest, through providing new opportunities for athletic programming, supporting and uplifting other Wisconsin-based adaptive sports organizations, and delivering education aimed at improving access and equity to health, fitness, and recreational opportunities in Wisconsin and beyond. Our team is volunteer-driven, working tirelessly to advocate for disability rights & inclusivity in sport, educate about the importance of adaptive sports in our communities, and support local clubs, teams, and events that allow adaptive athletes to discover their greatest potential. Dairyland Sports aims to serve as your “one-stop-shop” for Wisconsin adaptive sports – a place where adaptive athletes and families can discover, share, and engage with our adaptive sports partners from across the state.
